

SUPER TOER WAGEN CUP (STWC.EU)

REGISTRATION REGULATIONS

Dear drivers,

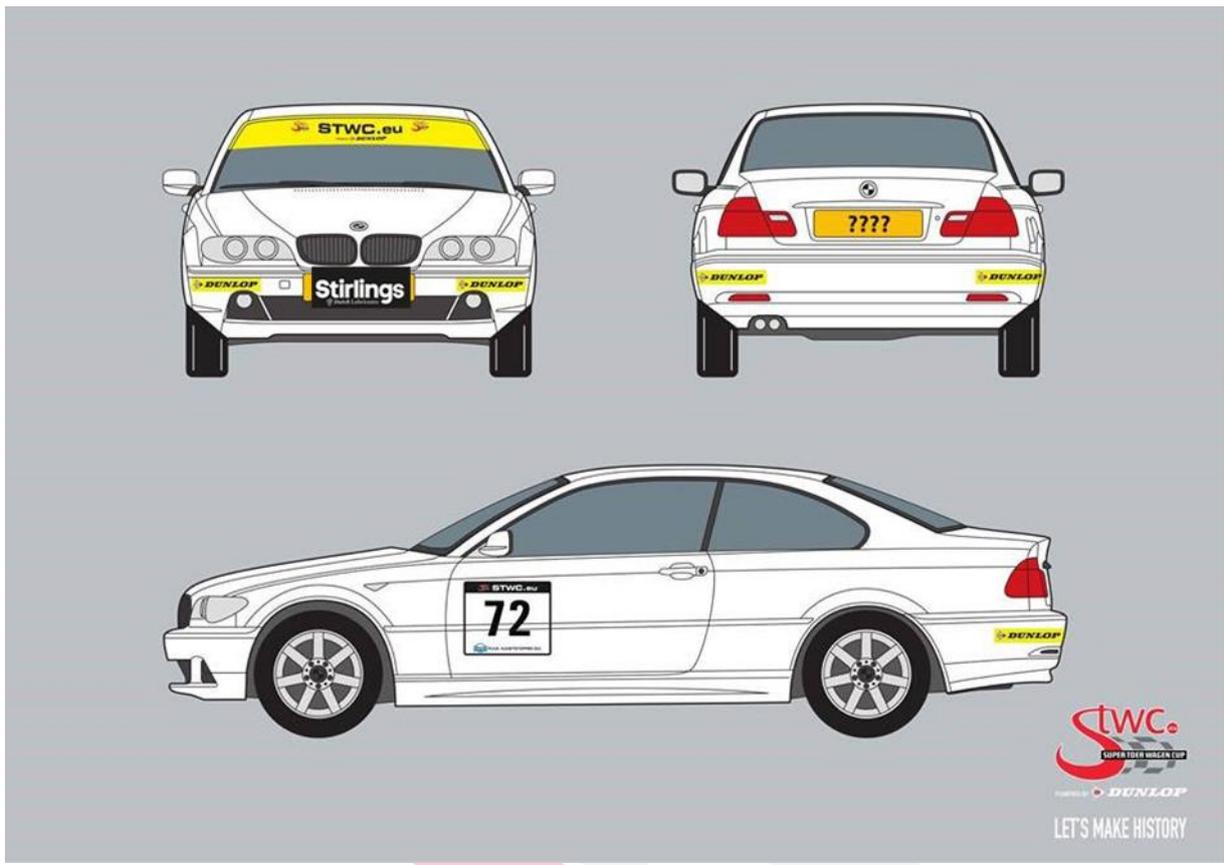

Some things do not belong in a regulation, but are things that are important for you to know. We have included these in these STWC registration rules.

To participate in our class, you need to pay your registration fee in advance as well as submit the driver's form. If you drive multiple drivers on one car, each driver must complete one form (the form can be found below these regulations). A rider remains obliged at all times to pay his registration fee. By registering you subscribe to the registration, technical and sporting regulations of STWC. In addition, participants (= applicants, drivers, passengers, car owners and owners) participate in STWC events at their own risk. You are solely responsible under civil and criminal law for any damage caused by you or the vehicle you use.

With regard to competitions at an event:

- Leveling through pit stop time; The organization reserves the right to give substance to this point if the lap times of the participants in the relevant class start to diverge too much. This will of course be done in reasonableness and fairness. The aim is to compete with each other in which every participant in the class is the basic contender for the victory. The organization prefers NOT to apply this point in its entirety.
- At the suggestion of STWC.eu it can be decided to convert the free training into a qualifying training and to convert the qualification into a sprint race over a maximum of 20 minutes. The final result of the qualifying training then determines the starting line-up for the sprint race. The final result of this sprint race then determines the starting line-up for the first 50-minute race. Then two qualifications where the final result of the qualification is the starting line-up of the following race. Of course, all this will be clearly stated in the special regulations and on the timetable.
- Inspectors and organization are never liable for the safety of the car. Then for a complete check on all points from the applied regulations. If, after verification or at a different time, non-detected items arise, they are never liable for them.
- Due to the diversity in classes, we do not use a minimum number of participants in a class to award points.
- It is strictly forbidden to distribute recordings of car accidents or accidents without the permission of the STWC or to put them online. Upon request, the camera or storage medium must be transferred to the STWC organization. We would like to receive available images for promotion of the class of drivers.
